2 ALA Titles

to climax the year.

Rich the Treasure; Public Library Service to Children.
Harriet G. Long. October 1953. 96p. Price to be announced.

Reviews the role of the public library in the life of the child so that the library's contribution may be made increasingly effective. Traces the early beginnings of children's librarianship; relates the profession to contemporary thought about the child and to the stream of effort by which the modern community hopes to develop better citizens of tomorrow. Discusses the library as a guiding influence on the child's reading and cultural development. Its challenging presentation makes the book important not only to librarians but to teachers and students of social science, and it is excellent recruitment material. *The Unreluctant Years; A Critical Approach to Children's Literature* (see below), with its emphasis on book selection guidance for the children's librarian, is a perfect complement to *Rich the Treasure.*

Pioneering Leaders in Librarianship.
Emily M. Danton, ed. September 1953. 200p. Price to be announced.

First in a series of omnibus volumes and Number 8 in the present "American Library Pioneers" series. Biographies of the following persons make up this volume: Clement Walker Andrews, Sarah B. Askew, Arthur E. Bostwick, Richard Rogers Bowker, Miriam E. Carey, Jennie M. Flexner, James L. Gillis, J.C.M. Hanson, Caroline Maria Hewins, Josephus Nelson Larned, Henry Eduard Legler, Eunice Rockwood Oberly, Ernest Cushing Richardson, Minerva Sanders, Katharine Lucinda Sharp, Elizabeth Putnam Sohier, Mary L. Now available! New teaching aids for Childcraft!

School libraries and public libraries providing special services to teachers will welcome our four new Childcraft booklets. They are designed for use in the kindergarten through third grade and will help both teacher and child to get the most out of Childcraft's wonders.

Pre-tested! These new booklets are the result of a successful 2-year experiment with Childcraft *in daily use* in representative school systems of different sizes and types in various parts of the country. So the more than 2,000 references included have already proved their practical value in the classroom. Attractive illustrations add to their interest.

Prepared under the direction of teachers from five major metropolitan school systems, these booklets are ideally arranged for the teacher's convenience. We feel sure you will want a set for your library. Fill in the coupon below . . . *today!*
